Australian Company awards a contract for a new zinc plant to UM Engineering

UM Engineering has been awarded a contract by the Australian company SUN METALS for the supply of the basic engineering and the special equipment for a new zinc electrolysis plant.

This contract makes part of the greenfield project of Sun Metals, a subsidiary of Korea Zinc, consisting in the construction of a 170,000 tpy zinc plant in Townsville, Queensland - Australia.

This project will be the 20th zinc electrolysis designed by UM Engineering (formerly Mechim) according to the technology developed by the former Vieille-Montagne, now merged into Union Minière.
