ISO 14001 for Produits Chimiques Wiaux

Produits Chimiques Wiaux, a subsidiary of the Union Minière Group, has obtained ISO 14001 certification for its entire range of activities.

The ISO 14001 certification, an internationally accepted standard of quality systems and awarded by an approved and independent auditor, certifies that the company is utilizing a strict system of environmental management. It is a recognition that the company observes very strict standards in its production, maintenance and logistics operations to protect its staff, the surrounding area and guarantees a consistent quality of its products and services to its customers.

Produits Chimiques Wiaux, is based in Seneffe, Belgium, and is a producer of cadmium oxides, cadmium powder and cadmium chemicals destined mainly to the battery, pigment, ceramics and stabilizers industry.

It is recognized as a world leader in the conversion of cadmium metal into value added specialty chemicals and is a member company of the Cobalt & Energy Products business unit of Union Minière, specialised in non-ferrous powders and chemicals.

Produits Chimiques Wiaux is the first company in the world, active in cadmium oxide production, having earned an ISO 14001 certificate. It is proof that metal compounds such as cadmium can be produced and handled safely taking into account very strict environmental and health standards.
